

ITAI 1371 Introduction to Machine Learning

Professor Viswanatha Rao (Vishwa)

Assignment: Lab 02 Exploratory Data Analysis

Group Member Contributions

Monepha Mitchell

I completed my individual lab notebook and participated in group discussions throughout the assignment. We shared the challenges we experienced while working with Pandas, NumPy, and Matplotlib, helped each other understand the concepts. I also communicated with the team to make sure everyone understood the assignment requirements and completed their individual work.

Ved Dalwadi

I started by setting up Google Colab from where I worked with my group, where we discussed how NumPy, pandas, and Madlib will all be useful in training and building machine learning models in the future.

Nigel Bontif

My part in the group was to double check and errors made in any of my teammate's journals and point them out. I also helped my group better understand the Iris dataset by pointing out the 3 different kinds of species
